

SYRACUSE UNIVERSITY

MAT 397-002, Spring 2014 – CALCULUS III, SYLLABUS SUPPLEMENT

Instructor: Professor Jack Ucci, Room 229B Physics; jjucci@syr.edu, 443-1583

Location: Class meets in Room 306 Carnegie, 11am-12:20am, Tuesday and Thursday

Office Hours: Monday 9am-10am, Tuesday 8am-9:15am

Grading: Your grade will be based on your scores on three midterm tests, a final exam and quizzes. Each midterm test will each count 20%, the final exam 25% and the quizzes 15% toward your grade. The dates for exams are listed on the day-by-day syllabus that follows. Notice that homework does not count toward your grade. It is not turned in. However, doing it is good practice for exams and quizzes.

Quizzes: Quizzes will be based on the most recent material and homework and will be given each Monday recitation except when one of the three midterm exams is given that day. There will be no makeups for quizzes except as required by the University Religious Holiday policy. However, the lowest 4 quiz grades will be dropped.

Midterm Exams: The three midterm exams will be given during Monday recitations on February 24, March 24, and April 21.

Day-by-Day Syllabus: This lists what sections we intend to cover each class. We may sometimes get a little ahead or behind this schedule. However, the midterm exams will be on exactly the days indicated above.
